

Guest lecture

Datum: Montag, 11. Februar 2018

Zeit: 16:30 Uhr

Ort: Hörsaal A, Sternwartestr. 15, Innsbruck

Dr. Kadmiel Maseyk

The Open University, School of Environment, Earth & Ecosystem Sciences, UK

Derzeit als BritInn-Fellow am Institut für Ökologie der Universität Innsbruck

Anticipating ecosystem responses to global change

The rapid changes to the atmosphere and climate system that are underway will have uncertain impacts on ecosystem structure and function. But how can we get some idea of what these impacts will be? In this talk I will outline the range of approaches that are used to tackle this problem and discuss the benefits and limitations of the different approaches.
